github.com/rymnddev

I am a passionate and hard-working frontend web developer from Sydney, Australia. I **really** enjoy the problem solving process, and I consistently maintains a strong level of attention to detail. I have great communication skills and am always interested in learning and improving my web development skills.

My dream is to one day become a senior developer.

Work

FEB 2023 - PRESENT

Hogarth Australia

Frontend Web Developer

- Built and updated websites and emails for client, resulting in higher traffic and sales
- Increased dev efficiency by building and maintaining custom tools
- Led team to adopt new tools and processes
- Trained colleagues and contributed to documentation
